TECHNICAL PUBLICATIONS USER COMMENT SHEET

BOMBARDIER

The Bombardier Learjet Technical Publications Team is continually striving to make our publications more usable to those in the field. We welcome your comments, criticism, and suggestions concerning any Bombardier Learjet publication. The action taken, as the result of your comments, will be noted below and a copy returned to you.

In our efforts to "Go Green" we encourage you to submit your comments electronically. A User Comment can also be created by navigating to User Comments through the Technical Library via https://my.businessaircraft.bombardier.com. You may also email it to Learjet.Squawk@aero.bombardier.com.

If electronic transmittal is not an option, this form may be returned by US Mail. You may mail it to Bombardier Learjet Technical Publications using business reply mail. Postage provided if mailed in the US.

If you have compatible PDF software, you may fill this form out electronically. Then by clicking on the button below an email will be opened with your completed form attached.

March 15, 2018

TO: Holders of Learjet 35/36 Illustrated Parts Catalog

SUBJECT: Revision No. 16 dated March 15, 2018

Revision 16 dated March 15, 2018 of the Learjet 35/36 Illustrated Parts Catalog is a Complete Reissue that replaces all previous issues.

Holders of this Illustrated Parts Catalog should remove the entire manual content, including tab dividers and spine cards from their existing binders and replace it with this package.

To ease the ordering process, the Publication Number should be used in reference to this manual. The Publication Number can be found on the title page of the manual.

Direct any questions concerning distribution (change of address, quantities, etc.) to the following:

Bombardier Inc.
P.O. Box 6087, Station Centre-ville
Montreal, Quebec, Canada H3C-3G9

Learjet Customer Response Center (CRC) Hotline
Domestic: (866) 538-1247
International: (514) 855-2999
Email: lj.tech.pubs.orders@aero.bombardier.com

These commodities, technology or software were exported from the United States in accordance with the Export Administration Regulations. Diversion contrary to U.S. law is prohibited.

LIST OF EFFECTIVE PAGES

INTRODUCTION

1. Purpose

The Illustrated Parts Catalog has been prepared by the Technical Publications Section of Learjet Inc. This manual contains listings of replacement parts to support the standard production configuration of the Learjet 35/36 series airplane. Information contained herein does not authorize or constitute authority to perform aircraft modification.

2. Illustrated Parts Catalog Numbering System

The material content of the Illustrated Parts Catalog is arranged and presented in the same aircraft group, chapter and section division as it appears in the Maintenance Manual.

The numbering system employed is composed of three elements, which consist of two digits each as shown in the following example:

First Element		Second Element		Third Element
Chapter		Section		Figure
XX	________	XX	________	XX

The Illustrated Parts Catalog is divided into four major sections, each of which is separated into chapters. Each chapter contains a List of Effective Pages (EFFECTIVE PAGES) and a Table of Contents (CONTENTS) page. The Illustrated Parts Catalog Chapters are as follows:

Major Section 1 − Aircraft General

Chapter	Title
11	Placards and Markings

Major Section 2 − Airframe Systems

Chapter	Title
21	Air Conditioning
22	Auto Flight
23	Communications
24	Electrical Power
25	Equipment/Furnishings
26	Fire Protection
27	Flight Controls
28	Fuel
29	Hydraulic Power
30	Ice and Rain Protection
31	Indicating/Recording Systems

Major Section 2 − Airframe Systems

32	Landing Gear
33	Lights
34	Navigation
35	Oxygen
36	Pneumatic
38	Water/Waste
39	Electrical Panels

Major Section 3 − Structure

Chapter	Title
52	Doors
53	Fuselage
54	Nacelles/Pylons
55	Stabilizers
56	Windows
57	Wings

Major Section 4 − Power Plant

Chapter	Title
71	Power Plant
73	Engine Fuel and Control
74	Ignition
76	Engine Controls
77	Engine Indicating
78	Exhaust
79	Oil
80	Starting

3. <u>Effectivity</u>

Aircraft effectivity is indicated by an eight digit number in the effectivity code column (EFFECT FROM TO). The effectivity code indicates that the detail part or the assembly is limited to specific production aircraft (i.e. effectivity code 35002676 indicates that the part is applicable to production aircraft 35002 to 35676, effectivity code 36002063 indicates that the part is applicable to production aircraft 36002 to 36063).

Where an existing part is limited in application, and a new part is added in production at a specific effectivity, the production effectivity for both the old an new parts will be shown in the effectivity column.

Parts without an effectivity code are applicable to all production aircraft that the figure is applicable for, except when POST SB is present within the nomenclature.

NOTE: Effectivity for POST SB parts are not listed in the effectivity column of this manual. Consult the listed Service Bulletin Number for specific aircraft effectivity.

4. General System of Assembly Order

The relationship of component parts of an installation or assembly may be determined by the degree of indenture in the nomenclature column.

1	2	3	4	5
Installation				
•	Detail Parts for Installation			
•	Assembly			
•	Attaching Parts for Assembly			
•	•	Detail Parts for Assembly		
•	•	Sub-Assembly		
•	•	Attaching Parts for Sub-Assembly		
•	•	•	Detail Parts for Sub-Assembly	

5. Abbreviations

ALT	− Alternate	INSTL	− Installation	NP	− Non Procurable
AR	− As Required	LH	− Left Hand	P/N	− Part Number
ASSY	− Assembly	LJ	− Learjet	REF	− Reference
DET	− Detail	NHA	− Next Higher Assembly	RF	− Reference
EXHTD	− Exhausted			RH	− Right Hand

6. Figure Page Identification Block

Illustration Page:	First Text Page:	Last Text Page:
FIG	FIG	END FIG
27−40−20	27−40−20	27−40−20
Page 0	Page 1	Page 2
Mar 15/10	Mar 15/10	Mar 15/10

7. How To Use The Catalog

Learjet part numbers with single and double value dash numbers (−1, −3, −11, −13, etc.) are identical to, and interchangeable with, the same dash numbered parts prefixed by non-significant zeros (−001, −003, −011, −013, etc.).

A. When the Part Number is Known:

(1) Find the part number in Numerical Index. Note Chapter, Section, Figure and Item Number.

(2) Turn to Chapter Section & Figure.

(3) Locate part on Illustration and in Figure parts list.

B. When the Part Number is Unknown:

(1) Turn to the Table of Contents of applicable Chapter to find required Section and Figure, or;

(2) Turn to the Alphabetical Index for part nomenclature to find required Chapter, Section, and Figure.

(3) Locate the part on the figure illustration to obtain the part list Item Number.

C. Symbol Column:

For interpretation of figure items that have a symbol notation, refer to Note Symbol Interpretation that appears below each figure parts list.

D. Alternate Part Number(s):

Alternate Part Number(s) are listed as non-illustrated items following the primary part number, with an "ALT for XX---" note included in the nomenclature column.

E. Revision Symbol:

The letter "R" in the outside margin of the figure parts list indicates text added or revised by the revision date shown in the Figure Page Identification Block.

F. Vendor Codes:

A five-digit Commercial and Government Entity (CAGE) Code preceded by a "V" letter appears at the extreme right-hand side of the nomenclature column. A list of codes, manufacturers and their addresses is provided.

G. Discarded Parts Symbol:

Discarded parts are indicated in the illustration by a trash can symbol. These parts are to be discarded and replaced with new parts. Reference the aircraft maintenance manual for the removal task. You will also find a note under the nomenclature column of the "primary" part that is involved in the AMM removal/installation task.

H. Electrical Equipment Codes:

The listing of electrical parts will contain an Electrical Equipment Code or Codes following the nomenclature, which will correspond with the Wiring Manual. An alpha-numerical index of Electrical Equipment Codes is provided.

8. How To Order Parts

The part number as it appears in the part number column of the figure parts list and the nomenclature of the part must be listed when spare parts are procured. Specify quantities required and be sure to indicate the model and serial number of the airplane for which the part is intended. For further instructions pertaining to parts procurement, contact your nearest authorized Learjet Service center or the Spare Parts Sales Department at

Learjet Inc.,
P.O. Box 7707,
Wichita, Kansas 67277−7707.
Telephone 1−866−538−1247 or 514−855−2999.
Fax 316−946−2700.

9. Common Stock Hardware

AN, MS, NAS or equivalent common hardware may be purchased through local vendors.

Learjet Inc. reserves the right to cancel, add or change the parts and assemblies described in this catalog without notice.

10. Export Controlled Part

Some items and technologies at Learjet may be subject to export controls licensing requirements under U.S., Canadian and other relevant laws and regulations. As such, when an order is placed for an export controlled item, an export license may be required. Failure to comply may subject Learjet and its customers to fines and penalties for breaching export control laws.

To protect our customers from the consequences of contravening export control laws, Learjet shall obtain the proper export license upon receiving an order for an export-controlled item. Once the proper export license is granted, the item can be exported to the customer.
